

Saturday Flu Clinics
for Patients of
Elliot Physician Network

It Just Takes
Prevent the Flu!
Get Vaccinated!
 **The Elliot.**
Live Better!

One person. You can make a difference.

If you get vaccinated you're protected and less likely to spread the flu virus to the people you come in contact with everyday. Practice good hygiene. Wash your hands frequently especially after touching shared surfaces and remember to sneeze into your arm.

September 24, Adults and Children

Pediatric Health Associates Manchester
275 Mammoth Road, Manchester

One reason. Be healthy this flu season.

**Call your primary care physician's office to
schedule your flu shot appointment.**

Clinics are by appointment only.

The CDC recommends the flu shot to everyone age 6 months and older. For more information please go to www.cdc.gov/flu for more information. If you have any questions and concerns contact your physician's office.
