5th Anniversary of the Solinsky Center for Cancer Care

## Celebrating Five Years of Hope and Compassion at The Solinsky Center for Cancer Care at The Elliot

This year marks a significant milestone as we honor the opening of The Solinsky Center for Cancer Care at The Elliot. Over the past 5 years, the Center has become a place of hope, innovation, and compassionate support for patients and their families on their cancer journey.

Since opening in 2020, during the COVID-19 pandemic, the Center has seen 2,780 new cancer diagnoses in medical oncology and has started 4,487 new patients in radiation oncology. To accommodate patient need, two additional nurse navigators were brought on board, bringing the total to four. The number of treatments provided to patients has steadily increased from 22,047 in 2021 to 26,934 in 2024.

Since opening in 2020, philanthropy has helped to provide the following:

- transportation to and from treatment for 3,767 patients.
- nutritional support for 263 patients through the food pantry.
- education and support for 239 cancer survivors.
- expansion of patient programs. The Solinsky Center now offers over 39 programs for patients, including art classes at The Currier Museum, a book club, educational programs, and more.

We thank all of the Hope is Here Campaign donors, our Annual Giving and Grateful Patient & Family Donors, event sponsors, and community partners who have supported the Solinsky Center for Cancer Care. Together, we have built a place of hope and healing and look forward to continuing to make a difference in the lives of the patients and their families who come through our doors.

## Walk for Hope

The Walk for Hope began in 2019, just prior to the opening of The Solinsky Center for Cancer Care. Since its inception, over \$320,000 has been raised to support nurse navigators, patient support services, wellness, and educational programs.

The Walk has grown to become a favorite event among patients, their families, and Elliot staff. It is a day of celebration and remembrance, providing a way for people to support a loved one on their cancer journey or give back in an impactful way to remember loved ones who have passed.

Thanks to the donations of our gracious community, the Walk for Hope has helped to provide vital nutritional services for our patients, alternative therapies that address the well-being and comfort of the patient, transportation assistance, and personalized guidance from our patient and family nurse navigators. Your support has made an incredible impact on the care we are able to provide to patients and we thank you!
