

Sign language and oral interpreters, TTYs, assistive listening devices and/or other auxiliary aids and services are provided free of charge to patients and their companions who need them for effective communication.

All public phones are equipped with amplification and volume control.

Public videophones and TTYs are located in the Emergency Department and Urgent Care Waiting Areas

For assistance please contact any hospital personnel, or contact 663-2780 (voice or TTY) or 546-7882 (VP) to be connected with the Deaf and Hard of Hearing Program Administrator.
