The Elliot Health System's Emergency Department is a 32 bed, full-service, Level II Trauma Center providing the best possible care for our patients and their families treating in excess of over 57,000 patient visits per year. Our department delivers extraordinary coverage consisting of Board Certified/Eligible Emergency Medicine Physicians, Nurse Practitioners, Physician Assistants and Trauma & Critical Care Surgeons. Our trauma team is readily available 24/7 to manage and treat traumatic needs of any child or adult in the community by board certified or board eligible trauma and critical care surgeons. Immersed within the department is a Pediatric Emergency Department staffed by board certified Pediatric Emergency Medicine physicians, an Acute Psychiatric Unit with dedicated psychiatric nursing, and a Rapid Triage & Treatment Area caring for those less emergent patients minimizing length of stay. Our providers work collaboratively with in-house staff consisting of radiologists, hospitalists, critical care physicians, and a multidisciplinary team of both medical and surgical specialists to provide the utmost level of care allowing us the ability to adapt to future innovations as emergency medicine evolves.
