

ELLIOT HOSPITAL

CRITERIA FOR PROSTATIC CRYOSURGERY

Section of Urology

Prerequisite:

Must have full privileges and competency in performing the procedures as delineated below.

Minimal Formal Training/Experience:

1. The candidate must have successfully completed a formal course at an accredited residency program with documentation of competency from Program Director.

OR

2. Must have completed a recognized course in training on either inanimate models or animal labs. The Chief of Urology will review the content of all courses to determine acceptability.

AND

- 2-a. The first two (2) procedures will be proctored. The proctoring evaluation forms will be completed and sent to the Medical Staff Affairs Office for review by the Chair of the Department and Credentials Committee. After successful completion of the proctoring, full privileges will be granted.
