

## *Elliot Senior Health Primary Care Assisted Living and Skilled Nurse Facilities*

The physicians and nurse practitioners at Elliot Senior Health Primary Care are able to follow your care in the event that you need additional recovery time or will be residing in select assisted living or nursing facilities. As a patient, you have the right to make informed decisions regarding your care including the right to choose the assisted living or nursing facility of your choice for continued care. We know it is important for your care to be consistent.

The list below indicates the facilities supported by Senior Health Primary Care providers. Upon the patients request the Senior Health Primary Care providers are able to direct patient care at the facilities listed below. Admission to a facility is generally based on bed availability and is not determined by the primary care provider's office.

There are many factors to consider when selecting a healthcare facility including location and personal experiences. Our patients do not have to choose a facility listed below. Please inquiry with the staff for a full listing of all assisted living and nursing facilities in the area.
